Re: Presentation Guidelines

This is just a reminder to presenters that the normal time slot for a presentation is 50 minutes. Please leave 10-15 minutes for discussion and group interaction as your topic is likely to stimulate much interest among members.

It is important, also, that presenters clearly link their presentation to School-Based Family Counseling theory and literature. The best source for current SBFC literature is the International Journal for School-Based Family Counseling <http://www.schoolbasedfamilycounseling.com/journal.html>

The attached Chapter 1 from the pending text: "School-Based Family Counseling: Transforming Family-School Relationships" gives a useful overview. The chapter also includes the SBFC Model which provides a map for conceptualizing the variety of family and school interventions and may provide a useful way of linking your presentation to other SBFC interventions.
